

# PRECIOUS POSSESSIONS

## Craft Instructions

Silver Trumpet  
Numbers 10:1-9

### Materials:

- 16 oz. soda or water bottle that is tapered (empty)
- Aluminum foil
- White glue
- Party horn piece
- Silver duct tape
- Long ruler
- Scissors
- Pencil
- Sharp knife (for cutting bottle)

Note: There will be no video for this week's craft.

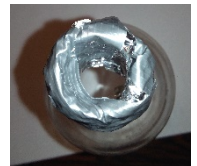

### Parent/Teacher preparation:

- Remove the label from the bottle and wash and dry it off thoroughly. This may need to be done the day before so it has plenty of time to dry. The inside of the bottle can be dried with a rag or paper towel once you have cut off the bottom.
- Cut off about  $1\frac{1}{2}$ " ( $3\frac{3}{4}$  cm) of the bottom of the bottle.
- Set the bottle aside.
- Cut a piece of tin foil about 17" ( $43\frac{1}{4}$  cm) long.

### Instructions for the craft:

- Fold tin foil piece in half width wise.
- Measure from one corner on the fold diagonally to the edge so that it measures 12" ( $30\frac{1}{2}$  cm). You are creating a triangle.
- Mark from the 12" ( $30\frac{1}{2}$  cm) mark in a curve to the other end of the fold opposite from where you measured.
- Cut the curve.
- Measure from the tip along the edge 2" (5 cm). Mark and cut the end off. Set piece aside.
- Take some of the pieces of the tinfoil you cut and wrap it around the mouth of the bottle to make the opening smaller.
- Use duct tape to hold it in place.
- Take the plastic piece of the party horn off the card board.

Craft - page 2:

## Instructions for the craft cont'd:

- Put the large end inside the mouth of the bottle and see if it will fall through; you may have to add more pieces. Tape in place with the duct tape.
- Next, wrap the tin foil piece over the bottle. The tin foil should look somewhat wrinkled as if it was hammered silver. The bottle will give the trumpet some structure.
- Hot glue the tinfoil in place.
- Fold the excess towards the inside on the wide side of the trumpet. Glue or tape in place, if needed.
- Pinch the edges to give it a fluted look to the trumpet.

This is a representation of the silver trumpet as spoken about in the lesson. It can be blown at all the feasts (Num. 10:10).
