

PRECIOUS POSSESSIONS

Craft Instructions Days of Creation Genesis 1:1 - 2:7

We have provided a craft (recommended for Katan A) and a notebook page (recommended for Katan B and Gadol). Based on your family/group, choose which works best.

Materials:

- Coloring pencils or crayons
- Paper plate
- Card stock - light color
- Copy paper
- Scissors
- Brad (paper fastener)
- Craft Templates: A (wheel cover) & B (black & white) or C (colored)

Parent/Teacher preparation:

- Print Craft Template A on card stock.
- Determine which template will be used; either Craft Template B, which needs to be colored in, or Craft Template C, which is already colored.
- If using paper plates, print Craft Template B or C on copy paper.
- If not using paper plates, print Craft Template B or C on card stock.

Instructions for the craft:

Craft Template A:

- First, color the wheel cover and then cut around the circle. Be sure to cut out the pie portion so that each day of creation will show individually around the wheel.

Craft Template B or C:

- If using Craft Template B (black and white), color the base with the 7 days of creation.
- Cut out the colored in base (colored Craft Template B or C) around the circle.
- If desired, glue the colored in base to a paper plate.

Assembly:

- Using the brad, pierce the center of the wheel cover and the center of the wheel base and attach them together.

The cover will rotate over the base showing each day of creation.
