

PRECIOUS POSSESSIONS

Notebook Page Instructions Waters of Meribah Numbers 20

Materials:

- Card stock - white (2)
- Coloring pencils, crayons or markers
- White glue
- Hot glue
- Scissors
- Brad (paper fastener)
- Tooth pick
- Craft foam scraps
- Butcher paper or a brown paper sack (mountain and rock)
- Silver foil shreds (water)
- Clear tape
- Pen
- Optional: dimensional paint
- Notebook Templates: Main Page and B

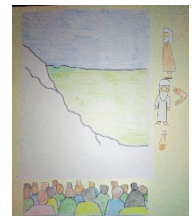

Note: there will be no video for this week's Notebook Page.

Parent/Teacher preparation:

- Print both templates on white card stock.

Instructions for the notebook page:

- Color both templates.
- The Main Page can be decorated with sun, grass, trees, tents or in any way you want for a nice background, etc. Use dimensional paint to add to the background like we did for the sun.
- The front section where the mountain is, does not have to be painted. It will be covered with the butcher paper.
- Set page aside.
- Cut out all the pieces from Notebook Template B.
- Set Aharon and the crowd aside.
- Poke a hole through the "x" in Mosheh's shoulder and Mosheh. Go in a circular motion so when you have the arms assembled they will be able to move.

PRECIOUS POSSESSIONS

Notebook Page - page 2:

Instructions for the notebook page:

- Push a brad through all the holes in the following order:
 - First, through the arm that is straight
 - Second, through Mosheh's shoulder
 - Last, through the bent arm
- Open the legs of the brad through the back to hold in place.
- Check the arms to make sure that they can move, mainly the bent arm.
- Take the toothpick and break off the pointed ends (this is for safety).
- Glue the toothpick on Mosheh's hand of the bent arm. Set it aside.
- Cut 2 long strips of your craft foam to glue to the bottom back of the crowd. If you only have short scrap pieces, that will work too.
- Glue 1 strip down at the bottom of the crowd section on the back.
- Glue the second strip on top of the last strip.
- This will raise the crowd from the paper.
- Set it aside.
- Next, you will be creating some mountain pieces from the butcher paper or paper sack. It can be done free hand as it does not have to be exact, or you can print the main template on regular copy paper and cut the large piece and the small piece apart and use them as templates. Make sure that the pieces are bigger than the actual mountain pieces.
- Once cut, crumple the pieces really well so that there are a lot of creases on the paper.
- To give the brown paper a more 'rocky' look, take a brown marker and turn it sideways and color across your mountain pieces so only the raised sections will get color. Optional: draw lines on the pieces.

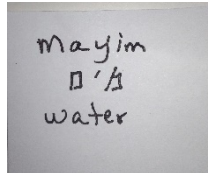

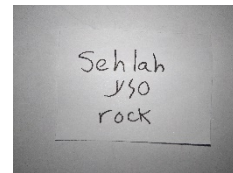

PRECIOUS POSSESSIONS

Notebook Page - page 3:

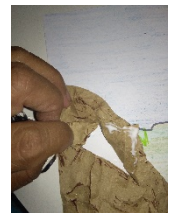

Instructions for the notebook page:

- Set the large piece aside.
- Take the smaller piece and cut a vertical slit about halfway on the piece. This will create a flap for the 'water' to come through.
- Take some strands of the silver foil shreds and fold them in half. Cut loops on one the end.
- Take the end in your hand and tape it to the back of the small piece on the wide side, on the right.
- Set the piece aside.
- Cut a couple of rectangle pieces from the left over scraps of Notebook Template B, large enough to write the Hebrew words for this week.
- Write:
 - 1) "Selah" 2) "סֵלַע" 3) "Rock"
 - 1) "Mayim" 2) "מַיִם" 3) "Water"
- Optional: color and trim the papers to look like rocks.

Assembling page:

- Put some glue on the larger section of the outline of the mountain and on the sides.
- Take the large mountain piece and glue it in place. Scrunch it or crease it in some places to fit the page. This will make it stand out.
- Glue the bottom of the mountain in place.
- Follow the first 2 steps for the smaller mountain piece to glue it in place. DO NOT glue the bottom.
- Move the foil and push it to the left side, out of the way of the flaps.
- Take the right flap and turn it out, just enough to put glue on the edges.
- Glue down to the page.
- The other flap will be left loose. Push the foil, twist it and push it into the smaller rock piece to hide it.
- Take the crowd piece and put glue on the foam. Glue the piece in place to the bottom of the page.

PRECIOUS POSSESSIONS

Notebook Page - page 4:

Instructions for the notebook page cont'd:

- Glue the Hebrew word pieces in place, making sure the word 'mayim' is under the small mountain piece. The other word can be glued anywhere on the mountain.
- Glue the feet of Aharon about halfway up the mountain.
- Glue the feet of Mosheh close to the small mountain piece.

This is a visual representation of the event that took place, when the children of Yisra'el grumbled about not having water at Meribah and Mosheh striking the rock. Mosheh's arm can be moved to look like he is striking the rock and the flap on the small mountain piece can be moved out of the way so the 'water' can flow down.
