

# PRECIOUS POSSESSIONS

## Craft Instructions Apple Candy Box

### Materials:

- Construction paper - red and green
- Toilet paper roll (for apple core)
- Scissors
- Tacky glue
- Chenille stem - green
- Craft Templates: A & B

### Parent/Teacher preparation:

- Print Craft Template A on white paper and use to trace onto red construction paper.
- Print Craft Template B on white paper and use to trace onto green construction paper.

### Instructions for the craft:

#### Apple core:

- Cut the red construction paper at the 2 indicated cut lines. Set aside strip 2.
- Glue strip 1 onto the toilet roll and trim as necessary. (P1)

#### Apple and leaf:

- Cut out the apple. Fold the apple in  $\frac{1}{2}$  and cut along lines. Do NOT cut all the way across. (P2)
- Pull each side in opposite directions to form the apple. (P3)
- Cut the leaf. Write "Chag Sameach" on the leaf to wish someone a happy feast. (P4)

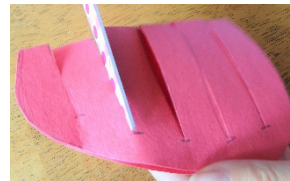

#### Top and bottom of apple core:

- Fold the green construction paper in half so that you can cut out 2 circles at the same time for lid and base. (P5)
- Cut lines where indicated to the center circle to make a 'skirt.' (P6)

# PRECIOUS POSSESSIONS

Craft Page - page 2:

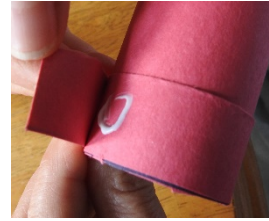

## Instructions for the craft:

*Top and bottom of apple core cont'd:*

- For the top, cut and fold strip 2 in half and glue together.
- Make a ring around the toilet paper roll core with strip 2 and glue it to itself. Since this is a removable top, do NOT glue the strip to the core. We left this piece around the core for the next step for added stability. (P7 & P7A)
- Place a thin circle of glue around the outer edge of the cut green circle and place this piece so that it is centered over the ring which is on the lid of the apple core. Fold the 'skirt' pieces over the ring and hold until secure. (P8)
- Repeat instructions for 'skirt' piece to cover bottom of apple core. This piece is glued directly to the apple core. (P8)
- Remove the newly created lid and push one end of the green chenille stem into the center of the lid. (P9)
- Push the other end into one end of the leaf. Pull the leaf gently toward the lid. (P10)
- Fold the chenille stem and insert the remaining end into the same hole. Now twist the ends and spread apart like the ends of a brad to secure. (P11)
- Twist the top of the chenille stem to hold the leaf in place. (P12)
- Gently slide the apple core through the cut slits of the apple alternating between the slits. (P13)

This is an apple candy box that can be filled with sweet treats (P14) to enjoy this festival. It can also be a table center piece.
